

Paper Tube Chinchilla

Materials:

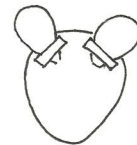

1 clean toilet paper tube, PDF printout template sheet, scissors, tape, something to color with (crayons, markers, paint, etc.)

1. Color and cut out all the shapes from the template sheet. Color the paper tube.

2. Use the dotted guide line on the ears to fold the bottom edge of each ear to the side of the ear as shown here.

3. Holding the folded ear, use tape to attach it to the back of your chinchilla's head.

4. Cut approximately 2 inches of tape. Press half the tape to the edge of the paper tube allowing about 1 inch to hang over the side.

5. Fold the tape that is hanging off the tube back over itself so the sticky side is facing up.

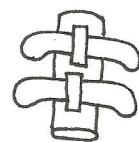

6. Press the head of your chinchilla on the sticky side of the tape. Make sure the edge of the tube is slightly above and between the chinchilla's eyebrows. When you let go, his head should set at an angle.

7. Tape the tail inside the tube.

8. Tape the feet to the bottom of the tube.

9. Don't open the cage! :)
